

Angela G. Harrigal, PE is honored with the 2009 ITE Young Engineer's Award for her dedication to the profession and continual involvement with ITE.

Joining the Lake Erie Chapter of ITE in September of 2004, Miss Harrigal was voted into the office of Secretary/Treasurer for the 2005 and 2006 calendar years. She has since moved up the ranks serving as vice president in 2007 and 2008, and is currently serving as President for the 2009 calendar year. She is also an International ITE member and an Ohio Section ITE member.

Miss Harrigal began her career in transportation at HNTB working in traffic and planning, moving on to ARCADIS gaining further experience in roadway design and planning. She is now employed at URS and continues to develop her experience in transportation design and engineering. Key transportation projects that Miss Harrigal has worked on include the Strategic Highway Research Program, Traffic Safety Studies for the City of Cleveland, and the SR 2 Corridor Improvements in Lake County.

Miss Harrigal graduated from Ohio University with her BSCE in June 2002, and her MSCE in June 2004 with a specialization in transportation and geotechnical engineering. As a student, Miss Harrigal was an OTEC sponsorship participant, and Flexible Pavement of Ohio scholarship recipient. Additionally, she presented at the International Conference on Highway Pavement Data, Analysis, and Mechanistic Design Applications in 2003.

In her spare time Miss Harrigal enjoys playing competitive volleyball, golfing, and spending time with family and friends.
